

What's new in this version? 5.1.0

NOTE: The trial version has fields, scripts and calculations that makes random errors, mistaken calculations and formulas, randomly deletes records. When the shareware fee is paid we will send you the link for the full version with no limitations.

– Included fonts. BusAcc.otf (Used for password verification within the files.)
CustomerCodePlain.otf (RoyalMail [RM4SCC] Used for United Kingdom Mail,)
FRE3OF9X.TTF or FREE3OF9.TTF (Barcode 3 of 9 used on some printed forms to be scanned when searching records,) USPSBarCode.otf (Postnet Used in the United States for Mailing Barcodes.)

NOTE ABOUT THE FONTS (Except BusAcc.suit). The fonts included are their author's property, and are, to the best of our knowledge, either freeware, shareware, demo versions or public domain. If anyone knows otherwise please notify us. This fonts have been collected from the web and are maintained with all files intact. Note that the fee paid is for the FileMaker templates/files and the fee does not include the fonts.
