Screen 1: Uploader Webby

Function available in Uploader Webby : send start/ stop service log viewer.

Screen 2: User Information

Connectivity information set by user information interface default user name set *system@netshell* and password *manager* if you are not administrator then you require NetShell service account for this you contact to your NetShell administrator. It also require message upload url and optional user / password for url.

6.0 **FAQ**

Q. Please provide default setting information?
A. default setting of Uploader Webby given blow

User/Password	system@netshell/manager (Find out your user account id /pass)
Uploader Webby default port	8020 TCP
Uploader Webby Configuration File	client.exe.config
Location of configuration file	C:\Program Files\Babu Software\Uploader Webby\

Q. Can Change of Uploader Webby port is possible?
A. yes change of port is possible.

Q. How to change Uploader Webby port?
A . Find out Netshell   service host and port then Open Configuration file "client.exe.config" in notepad. For Example I found that my NetShell service is running 9920 port host localhost so change port is required from 8020 to 9920

Change value from
<client url="http://localhost:8020/RemotingSMS">
<wellknown type="service.netshell.ServiceNeXT, service.netshell"
url="http://localhost:8020/RemotingSMS/ServiceNeXT.soap" />
</client>
to
<client url="http://localhost:9920/RemotingSMS">
<wellknown type="service.netshell.ServiceNeXT, service.netshell"
url="http://localhost:9920/RemotingSMS/ServiceNeXT.soap" />
</client>

Q. Remote management of Uploader Webby is possible?
A. NO remote management is possible.

Q. Whenever I send command always got message *the underline connection was close: unable to connect remote server*?
A. this is due to service not available or invalid configuration. Find out correct configuration, service status from your NetShell   Administrator.
