8.0 FAQ

Q. Please provide default setting information?
A. default setting of NetShell Manager given blow

User/Password	system@netshell/manager
NetShell Manager default port	8020 TCP
NetShell Manager Configuration File	web.config
Location of configuration file	C:\Inetpub\wwwroot\NetShell

Q. Can Change of NetShell Manager port is possible?
A. yes change of port is possible.

Q. How to change NetShell Manager port?
A . Find out Netshell service host and port then Open Configuration file "web.config" in notepad.
For Example I found that my NetShell service is running 9920 port host localhost so change port is required from 8020 to 9920

Change value from

client url="http://localhost:8020/RemotingSMS">

                                       <wellknown type="service.netshell.ServiceNeXT, service.netshell"
url="http://localhost:8020/RemotingSMS/ServiceNeXT.soap" /> </client>

to

client url="http://localhost:9920/RemotingSMS">

                                       <wellknown type="service.netshell.ServiceNeXT, service.netshell"
url="http://localhost:9920/RemotingSMS/ServiceNeXT.soap" /> </client>

Q. Always got message invalid mobile number, is any validation set for mobile number?
A. YES, mobile number validation set for 10 or 10 + digit numbers (e.g. +919415917612). if you require deferent mobile number validation contact to support team.

Q. Whenever I send command always got message *the underline connection was close: unable to connect remote server*?
A. this is due to service not available or invalid configuration. Find out correct configuration, service status from your NetShell Administrator.

8.0 For More Information
